R&B G2 CHECK OUT SHEET v2.xls

Tom,

See the attached equipment list for the Red and Bonita site for next week. It would be best if Elliott could pick it up and take it to ERRS Friday. Please let Elliott know when the equipment might be ready. He can pull the things from the lab if that's best. He will be emptying the settling cones from the lab and taking the 5 gallon bucket of water from Jen Patereau's treatability tests to ERRs for disposal back at the site.

Please let me know if you have questions or concerns.

Thanks.

Jan
